Chief of Logistics

JUL 1 1954

Chief, Coordination and Requirements Staff

Deactivation of Project PBSUCCESS

1. Attached herewith, is an administrative plan covering the logistical area of subject deactivation.

2. The recommendation, that the supplies and equipment recovered from the PBSUCCESS operation be shipped to [] and processed for long-term storage, is based on the following:

25X1A2D2

- a. Increased utilization of a facility already under the control of the Agency.
- b. Increased security in connection with any operations in areas similar to that involved in PBSUCCESS.
- c. Initial stockpile of materiel necessary to meet the initial requirement of any future operation which the Agency might be called upon to mount in the general
